

Event Report - 1st Jaypee Education Synergy Teachers Training Programme

The Chemistry Department organized the 1st Jaypee Education Synergy Teachers Training Programme from May 29 to June 3, 2023. There were eight teachers from various schools who attended this training programme. This training programme aimed to enhance knowledge in areas/topics such as chemical kinetics, coordination chemistry, chemical bonding, equilibrium, and extraction techniques, along with labs related to conductometric and iodometric titrations, chemical kinetics, and extraction techniques. The faculty members from various departments such as chemistry, physics, chemical engineering, and mechanical engineering took lectures in this workshop.
